A hearing aid with technology that's out of this world.

A hearing aid with processing power higher than the guidance computer of the Apollo 11 spacecraft!

Reduce noise, hear clearer, live better

Moxi™ Pro with SpeechZone™ is a remarkable hearing aid that can dramatically improve your ability to hear and understand speech in noise. Its secret is the powerful Era platform that SpeechZone is built upon. With the ability to process 200 million commands per second – this hearing aid has more processing power than the guidance system of the Apollo 11 spacecraft. (Apollo 11's processing power was only 1 million commands per second.) So, you can see it really is technology that's out of this world!

unitron.

Hear what you want even with distracting background noise

Understand conversations in your most challenging environments

Delight in clear, one-on-one conversations again

Watch TV and actually hear what's happening

Out Of This World Event **March 18-22**

Do you know the common signs of hearing loss?

- Do family members complain that you turn up the TV or radio too loud?
- Do you frequently ask others to repeat themselves, particularly when two or more people are involved in the conversation?
- Do you feel that other people are mumbling?
- Do you have great difficulty communicating in noisy places, such as restaurants?
- Are you unable to clearly hear the voices of young children or women?

If you answered yes to any of the above questions... be sure to take advantage of this limited-time opportunity!

HEARING
free to hear™

SpeechZone focuses in on what you want to hear

SpeechZone™ is a breakthrough hearing aid technology from Unitron that can dramatically improve your hearing. Whether you are in a noisy restaurant or one-on-one conversation, SpeechZone has the power to substantially reduce distracting background noise and pull out what you want to hear. And, it constantly adjusts automatically, so you can hear better and get clearer speech in any environment.

Pro knows the direction of speech

Thanks to the power of binaural spatial processing, your hearing aids can continuously work together to automatically analyze the environment and determine the direction of speech. This is how SpeechZone is able to zone in on what you want to hear for better speech understanding and easier conversations, even in the toughest listening situations.

Moxi Pro delivers its power in a small and comfortable way

No need to sacrifice comfort for technology with Moxi™ Pro. It delivers on both. With a sleek, stylish design, Moxi Pro is light, comfortable and virtually invisible. And, it offers wireless streaming of audio from cell phones, MP3 players and TVs to always keep you connected.
